

International Trainers Forum

Since the first meeting of biography trainers following the Worldwide Biography Conference 2003 at the Goetheanum, an international forum working with training issues has come into being.

Meetings are held annually, usually at the Goetheanum, Dornach, Switzerland, during which we work towards an esoteric deepening of the biographical impulse in relation to the challenges and responsibilities of trainers, as well as through sharing and engaging in research together to further nourish the development of work with biography as a vocation. In addition we wish to make our professional experience available to colleagues who are developing new trainings in biography work based on Anthroposophy and seek qualified mentors.

The *International Trainers Forum* has undertaken to develop itself as a professional group within the *General Anthroposophical Section* to represent trainings wishing to maintain an ongoing relationship with the *School of Spiritual Science*.

All colleagues who offer, or are in the process of preparing, a certified training founded on the biography impulse out of Anthroposophy are welcome to take up contact with International Trainers Forum.

Representatives of trainings seeking permanent membership in International Trainers Forum are requested to:

- carry and represent a certified training which is already taking place;
- be a member of the *School of Spiritual Science* at the Goetheanum;
- be co-responsible for furthering the quality and development of biography work;
- maintain continuity in attending meetings;
- share the task of providing support and mentoring for new training programs.

The next meeting will take place from 21 - 23 May 2010 at the Goetheanum.
